Lifetime warranty

Occupies 1 module space
RJ45 socket at rear

This module is part of Vision's Techconnect connectivity faceplate family.

Shielded Ethernet Socket
Shielded female to female ethernet socket, which is backwards compatible with RJ11 phone jacks

Flexible
Get to site and the client changes what they want on their AV faceplate? No problem.

Fixes to Surround
Techconnect modules fix into a surround, which in turn fixes to a backbox, mudring (for hollow walls), or a table faceplate.

Strong
Techconnect parts are robust for the rigours of every day use. They include strengthening ribs and reinforcing where required.

Future-proof
If you break a module or need to change it in the future, just replace that part - not the entire faceplate.

Proven
For over 15 years Techconnect has improved and developed into one of the most popular AV faceplates in the world.

SPECIFICATIONS

COLOR
White
